Summary

Experienced Full-Stack Developer adept in React, Next.js, TypeScript, and Python. Proficient in Node.js. BCA candidate eager for new opportunities. Passionate about crafting exceptional user experiences and building scalable backend solutions.

Experience

Web Developer • Cognify Digital PVT LTD

Apr 2024 - Present

Here, I am learning full-stack development, focusing on Python, Django, and Django Rest Framework (DRF) to build scalable APIs. I am gaining knowledge in backend architecture, API integrations, and security, while also exploring frontend development to create complete solutions.

Full Stack Developer • SKITCH

Nov 2023 - Feb 2024

Contributed to comprehensive web development as a full stack developer at Skitch. Implemented front-end and back-end tasks, showcasing versatile expertise in the software development lifecycle.

Frontend Web Developer • Primewise Consulting

Sep 2023 - Dec 2023

- Managed two websites at Primewise Consulting, ensuring seamless functionality.
- Successfully deployed both websites on AWS, showcasing advanced proficiency.

Frontend Web Developer • Trade Cops

Mar 2023 - Aug 2023

- Developed and designed a website using React JS over a period of 6 months
 - Implemented various features and functionalities to enhance user experience
-

Education

Bachelor of Computer Applications • Indra Gandhi National Open University, Delhi

Jun 2021 - Present

Computer Science

Pursuing a Bachelor's degree in Computer Science (BCA) and actively acquiring extensive knowledge in the field.

Projects

Katym App

Mar 2024 - Present

Designed KatyM with React, React Router, and TailwindCSS. Implemented Express.js, Mongoose for backend. Used Zod for data validation, showcasing passion for coding and tech integration.

Medium - A Blog Application

Mar 2024 - Present

Implemented JWT-based authentication, CRUD operations for blog posts, and Zod for frontend validation. Leveraged Prisma's connection pooling for efficient database connections. Utilized Cloudflare Workers for scalable backend operations, enabling Cloudflare Edge Deployment.

Skills

Java, C++, react js, TypeScript, HTML, CSS, Javascript
