GAURAV

Full Stack Developer | Expert in End-to-end Software solutions | Enhancing User Experience

📞 : +91-8447983282 | ✉ : gaurav8861r@gmail.com | 📍 Delhi, In | in LinkedIn

Full Stack Developer with **2** of experience in building scalable web applications and optimizing digital platforms. Proficient in frontend and backend development using technologies like React.js, Next.js, Node.js, Django, and TypeScript. Skilled in designing secure, high-performance APIs with JWT authentication and database optimization using Prisma and MongoDB. Experienced in deploying cloud-based solutions on AWS, Vercel, and Cloudflare Edge for enhanced scalability and reliability. Adept at integrating DevOps tools like Docker and Grafana to streamline development workflows. Adept at managing cross-functional teams and aligning technical solutions with stakeholder requirements.

KEY SKILLS

Software Development Lifecycle | Frontend Development | Backend Development | Full Stack Development | Data Management | Stakeholder Engagement | Application Design & Development | Technical Documentation | Reporting & Documentation

TECHNICAL SKILLS

JavaScript (Node.js) | TypeScript | Python | HTML | CSS (Tailwind CSS, Sass) | Next.js | React.js | Node.js | Django | SQL | MongoDB | AWS Deployment | Vercel | Docker | Grafana | Git | GitLab | Bitbucket | Jira

PROFESSIONAL EXPERIENCE

Full Stack Developer | Cognify Digital Private Limited
New Delhi, In | April 2024 - Present

- Mastering full-stack development at a Delhi-based IT firm, specializing in web & app development and digital marketing.
- Building scalable, secure APIs using Python, Django, and DRF, ensuring high-performance backend systems for digital solutions.
- Enhancing backend architecture with robust database design, third-party API integrations, and top-tier security practices.
- Developing seamless frontend interfaces, collaborating closely with designers and engineers for user-centric solutions.
- Operating in an agile environment, leveraging Git and Jira to streamline workflows and ensure timely feature delivery.

Full Stack Developer | SKITCH
New Delhi, In | Nov 2023 - Feb 2024

- Led full-stack development for innovative web projects, handling both frontend and backend architecture.
- Engineered dynamic user interfaces with React.js and integrated them with scalable backend services.
- Optimized performance, ensuring cross-browser compatibility and smooth user experiences.
- Collaborated with a fast-paced team, delivering high-quality applications under strict deadlines.
- Refined debugging, testing, and deployment skills, tackling complex development challenges with efficiency.

Frontend Web Developer | Prime wise Consulting
Bengluru, In | Sep 2023 - Dec 2023

- Developed & deployed two client-facing websites, enhancing the digital presence with scalable, secure cloud hosting using AWS.
- Built responsive web experiences with Next.js, TypeScript, and Tailwind CSS while ensuring optimal performance.
- Refined cloud deployment expertise, mastering hosting, domain management, and infrastructure optimization.

Frontend Web Developer | Trade Cops
Noida, In | May 2023 – June 2023

- Designed & built a robust digital platform with React.js, delivering a fully functional, interactive website with optimized UI/UX for smooth navigation, fast load times, and responsiveness.
- Integrated APIs and static data to align design with functionality while ensuring high code quality, thorough documentation, and on-time project delivery.

PROJECTS

Katym App   Mar 2024
Tech Stack: MongoDB, NodeJS, ReactJS, ExpressJS
- Designed & developed KatyM for a seamless UI, integrating Express.js & Mongoose for backend.
- Ensured data integrity with Zod validation, showcasing a passion for coding through efficient tech stack integration.

Medium App   Mar 2024
Tech Stack: HonoJS, PostgreSQL, ReactJS, ZOD
- Implemented JWT-based authentication, CRUD operations, and Zod validation for secure and seamless blog management.
- Optimized database performance with Prisma's connection pooling and leveraged Cloudflare Workers for scalable backend operations with Edge Deployment.

EDUCATION

- Bachelor of Computer Applications | Indira Gandhi National Open University |2021
